

Meet Flex.

We've reimaged traditional solar like this:

It covers your energy today. It expands for your growing needs tomorrow. And you only pay for what you use.

Meet Sunrun Flex. It's more than solar. It's an energy subscription designed around your life.

Meet the next evolution in the energy revolution.

Local Utilities

Utilities generate, transport, and sell energy at a kilowatt-hour rate. It can be expensive and unreliable.

- ✓ Generally available
- ✗ Can be expensive
- ✗ Rates continue to increase
- ✗ Unreliable
- ✗ Can be dirty

Traditional Solar

Generating clean energy from your roof eliminates power plants and saves money, but when your energy needs change, you'll have to tap back into your local utility.

- ✓ Abundant energy from the sun
- ✓ Affordable
- ✓ Reliable
- ✓ Produces clean energy
- ✗ Inability to access more solar energy without an oversized or second system

NEW

Sunrun Flex

Flex is an energy subscription designed around your energy usage today – and your anticipated needs tomorrow. When your energy needs expand, your Flex plan grows with you.

- ✓ Affordable
- ✓ Reliable
- ✓ Produces clean energy
- ✓ Flexibility to access more affordable solar power when you need it
- ✓ Only pay for the energy you use
- ✓ No expensive oversizing or costly second systems
- ✓ Peace of mind with battery backup

SUNRUNflex

An energy subscription for all of life's what-ifs, and what's nexts.

Energy savings and independence designed to grow with you.
