

CONCRETE LEVELING

Relevel and Restore
Driveways, Patios, Sidewalks,
Porches & Any Concrete Slab

Your Local Pros

Tomlinson Cannon are the professionals when it comes to leveling and restoring your sunken concrete. We repair driveways, sidewalks, patios, garage floors - any concrete slab. Our polyurethane foam injection repair techniques are both highly effective, long-lasting, much less expensive and much quicker than replacing your concrete.

We have decades of experience raising concrete throughout Iowa City, Cedar Rapids, Waterloo, and the Quad Cities.

	Foam Injection/ Polyjacking
 The Process	Drill holes into sunken concrete and inject polyurethane foam (similar to the foam in your couch cushions). The foam expands, raising the concrete.
 Installation Hole Size	Dime size (5/8"), patched with concrete.
 Cure Time	Within 30 minutes.
 Clean Up	No disruption to landscaping. Minimal clean up.
 Environmental Impact	Non-toxic, eco-friendly, USDA certified biobased product. Smallest carbon footprint of all available poly materials.

Don't replace it. Raise it!

Our concrete raising services come with a two-year warranty.
