

Concrete Protection Systems

Concrete Solutions Designed to Restore & Protect

**TOMLINSON
CANNON**
SINCE 1948

Cost effective.

4-year & 6-year
warranty options.

Improved surface
durability.

Customizable
solutions.

Why choose a Concrete Protection System?

- ✓ Extends the life of your concrete.
- ✓ Improved safety.
- ✓ Enhance curb appeal.
- ✓ Boosts property value.
- ✓ Protect structural integrity.

We offer a two-part and three-part CPS to restore your concrete.

Two-part CPS:

- 1 First, high-density polyurethane foam is injected beneath the driveway and front door approach to fill all voids, providing essential support and preventing further settling.
- 2 Second, every joint and visible crack in these areas is meticulously caulked with a high-quality, flexible sealant to prevent water intrusion and additional damage.

Three-part CPS:

Two-part CPS, plus:

- 3 A professional-grade, spray-on penetrative concrete sealant is applied to the surface, guarding against stains, defacement, and weathering.

OUR GUARANTEE

These all-in-one systems protect and preserve the look and integrity of your concrete surfaces, offering long-lasting performance and peace of mind. Backed by a 4- to 6-year warranty depending on the system used, it's a reliable solution for lasting concrete protection.

WE ALSO DO...

- Roofing & Siding
- Seamless Gutters
- Egress Windows
- Basement Waterproofing
- Crawl Space Encapsulation
