"We're now attaching storage in that subscription 73% of the time, which allows homeowners to generate their energy, store their energy, and use it to make sure that they have no outages in their home, to make sure that they're maximizing any kind of complex utility rates. But then we also take that energy and export it back to the grid."

Reply from Sunrun

Hi Norman! Thank you for taking the time to share your experience with us. We're sorry to hear about the challenges you faced early on, but we're incredibly glad our team was able to step in and address the issues. It's great to hear that everything is working well and that you found our team helpful and supportive. Thanks!
